The KHS-1 is an automatic snap attachment machine. The snaps are supplied automatically by the motor drive and attached by stepping on a foot pedal.

A safety device is activated when increasing the safety cover, also LED marking light to clearly display the strike position equipment. The pinch setting can be adjusted to ensure the snap is attached accurately. The KHS-1 can be configured to work with prong snaps, S-spring and ring-spring fasteners of various sizes and models. The KHS-1 is sold in pairs.
